

# **CURRICULUM VITAE**

## **Samia HALIMI**

### **Professor-researcher**

Department of Ecology & Environment

Fac: SNV

Abbas Laghrour university 40000 – Khenchela Algeria

Mobile : 0665 473 542

Professionel Email: halimi.samia@univ-khenchela.dz

### **DIPLOMAS**

#### **February, 2020:**

Geology degree from a university (option: hydrogeology)

#### **February, 2017**

Geology doctorate with a focus on hydrogeology

**Theme:** Assessment of the effects of traffic on the aquifers in the areas traversed. The Annaba plain was traversed by RN44, RN16, and RN21. Algeria's northeast.

#### **April, 2008**

Geology master's degree with a focus on hydrogeology

**Theme:** Cherf/Sedrata Wadi watershed (North-East Algeria) resources and integrated water resource management test.

#### **June, 2002**

Water science and technology state engineer's degree

**The project Theme:** Examination of Seybouse waters' physicochemical and bacteriological contamination markers after liquid discharges from ORELAIT.

#### **June, 1997**

Natural and biological sciences baccalaureate series

### **TEACHING**

#### **2008/2009**

Associate, Department of Chemistry and Hydrocarbons. Kasdi Merbah University of Ouargla.

#### **2009-2010**

Associate Professor Lecturer at the Faculty of Natural and Life Sciences, Department of Ecology and Environment. Abbas Laghrour University in Khencela. Algeria

## **2017**

Associate Professor-B in the Faculty of Natural and Life Sciences, Department of Ecology and Environment. Abbas Laghrour University in Khencela.

## **2020 to date**

Associate Professor-A in the Faculty of Natural and Life Sciences, Department of Ecology and Environment. Abbas Laghrour University of Khencela

## **RESPONSABILITY**

### **2013-2016:**

Head of the Master's specialty in Ecology and Environment (basic and applied ecology, once the framework has been aligned).

### **2017:**

Member of the Disciplinary Council of the Department of Ecology and Environment. Faculty of Natural and Life Sciences.

### **Member of scientific comities of Seminars:**

- First national symposium on: water, health and environment impact of climate changes (25 September, 2023)
- 1est international hybrid conference on climate change, georessources and sustainable development (23 May 2022)
- Au 1<sup>er</sup> Séminaire national sur Le défi de la gestion des déchets entre destruction et valorisation (septembre 2023)

### **2025:**

- Member of the Disciplinary Council of the Department of Ecology and Environment. Faculty of Natural and Life Sciences.

### **2025**

- Member in the CSD of the Faculty of Ecology and Environment. Faculty of Natural and Life Sciences.

## **EXPERIENCES:**

- Member in Water and Environment Laboratory, Fac SNV, Department of Earth and Universe Sciences, Tebessa University –Algeria-.
- Member in Laboratory of Biotechnology, Water, Environment and Health (L.B.E.E.S.) Khencela University, -Algeria-
- Jun 2024: Excellence in reviewing in the International Journal of Environment and

**Climate Change:**

- December 2024: Best performing membrane determined by pairs (BP International)
- Supervision of a start memo (2024):
- Involvement in the drafting process: How to reissue a patent?
- Teaching in the framework of improving the knowledge of doctoral students in ecology and environment -2023. University of Khencela
- Participation in the development of the questions of the PhD competition at the University of Khencela in 2021.
- Provide part of the correction of the doctoral exams (University of Khencela, 2021).
- Supervision of more than 15 Master's theses

**SCIENTIFIC WORKS**

**Seminars**

1. SIMINE 09. Séminaire International sur l'Industrie et l'Environnement (03 & 04 Novembre 2009). Communications orales :
  - a) Analyse des indicateurs de pollution physicochimiques et bactériologiques des eaux de la Seybouse suite aux rejets liquides de l'ORELAIT.
  - b) Ressources et essai de gestion intégrée des eaux du bassin versant d'oued Cherf / Sedrata (Nord – Est Algérien).
2. 1<sup>er</sup> colloque international sur la Gestion Intégrée des ressources en Eau (Batna10 &11 Novembre 2009). Communication poster: Qualité des ressources hydriques superficielles et souterraines dans un milieu rural et urbain. Cas de la basse Seybouse (N-E Algérien).
3. The irrigation and risk of saline pollution. Example: groundwater of the plain of Annaba (North East of Algeria). Accepter en: International Water Conference 2016 Water Resource in Arid areas: The Way Forward. Conference Hall Sultan Qaboos University Muscat Sultanat d'Oman.
4. International Conference on integrated Environmental management Sustainable Development (October 27-30 2016). Assessment of groundwater salinity and risk of soil degradation in quaternary aquifer system (Example: Annaba plan. Algeria NE) Presented in ICIEM 2016. Présentation Poster.
5. Sixième édition du congrès international : Eaux, Déchets & Environnement (EDE6) Maroc, Béni Mellal, le 12- 14 Décembre 2017. Communication orale : Evaluation de risque de contamination des eaux par les métaux lourds issus de la circulation

routière. Cas de la plaine d'Annaba (Nord Est Algérien).

6. Assessment of Groundwater Salinity and Risk of Soil Degradation in Quaternary Aquifer System (Example: Annaba Plain, Algeria N.E). Paper accepted in the 8<sup>th</sup> International Conference on Water Resources and Arid Environments (ICWRAE 8) which is taking place in Riyadh from 3 to 5 December 2018.
7. The first international seminar on Green and Food Security (16-17 November 2022, Khenchela university): Contribution to the study of hydrogeochemical assessment of water quality and their suitability for irrigation in Bouhmama plain(NE of Algeria). Communication oral.
8. International seminar on valorization of Ecological and food resources (18-20 October 2022 Skikda university): Aptitude des eaux souterraines de la plaine de Bouhmama à l'irrigation.
9. Environmental Integration (EMCEI-22), held in Sousse, Tunisia, on 01–04 November 2022 (Paper number 799) Hydro-geochemistry and pollution of groundwater in the ESBIKHA wetland zone (El Mahmel w. Khenchela. North east of Algeria)
10. The 2nd National Wetlands Day (Fevrier, 2023): towards wetlands restoration by Orale presentation entitled: Evaluation et caractérisation de la pollution hydrique par des espèces bioindicatrices de Sebkhet Ouled Amara (El Mahmel - Khenchela. NE Algérien).
11. Au 1<sup>er</sup> Séminaire national sur Le défi de la gestion des déchets entre destruction et valorisation septembre 2023. Présentation d'une conférence plénière intitulée: L'eau et le développement durable: Approfondir les connaissances pour relever les défis de la valorisation des eaux usées.
12. 5éme colloque international CIGSDD 2022 sur les gosciences au service du développement durable (15-16 Février 2023) : Assessement of groundwater and surface water quality (salinisationan nutrients). Case of mellagou plain, NE of Algeria).

### ***Internationales publications***

1. Irrigation and Risk of Saline Pollution. Example: Groundwater of Annaba Plain (North East of Algeria), European Scientific Journal February 2016 edition vol.12, No.6 ISSN: 1857 – 7881 (Print) e - ISSN 1857- 7431
2. Impact of agricultural activities on the evolution of nitrate and nitrite levels in groundwater of Annaba plain (north east of Algeria). Journal of Biodiversity and

Environmental Sciences (JBES) ISSN: 2220-6663 (Print) 2222-3045 (Online). Vol. 9, No. 3, p. 120-124, 2016.

3. Suitability of Cheffia dam surface waters for irrigation (El Tarf area) Journal of Biodiversity and Environmental Sciences (JBES) ISSN: 2220-6663 (Print) 2222-3045 (Online) Vol. 10, No. 6, p. 274-282, 2017.
4. Water resources and their management under impact of climate change and users pressures in Kebir-West River basin (North-Eastern Algeria), using the WEAP model. Journal of Biodiversity and Environmental Sciences (JBES) ISSN: 2220-6663 (Print) 2222-3045 (Online) Vol. 10, No. 4, p. 19-26, 2017.
5. Assessment of Groundwater Salinity and Risk of Soil Degradation in Quaternary Aquifer System (Example: Annaba Plain, Algeria N.E). 2018, No. 36 (I-III): 57–65. DOI: 10.2478/jwld-2018-0006.
6. Aptitude des eaux épurées de la STEP de Khencela à l'irrigation. Journal international Sciences et technique de l'eau et de l'environnement Tunisie. N°2 (2018).
7. Evaluation of road traffic impact on the aquifers of the crossed areas. Application to Annaba plain crossed by (RN 21, NR16 and NR44). Northeastern Algeria. J Fundam Appl Sci. 2020, 12(3), 1404-1422. DOI: <http://dx.doi.org/10.4314/jfas.v.12i3.26>.
8. Exploration of Road Traffic Emissions and Their Impact on Air Quality in and around of Annaba City (North East Algeria). ISSN: 2456-1878 (Int. J. Environ. Agric. Biotech.) ,<https://dx.doi.org/10.22161/ijeab.85.14>.
9. Assessment of groundwater Pollution using GIS based on the DRASTIC in part on the Oued Souf region (Northeast Algeria Sahara). African Journal of Biological Sciences DOI: 10.48047/AJBS.6.15.2024.9008-9027.
