

14 - Life Underwater

14-02 Supporting Aquatic Ecosystems Through Education

14-02-01

Does your university, as an institution, offer educational programs on freshwater ecosystems (irrigation practices, water conservation) to local or national communities?

Yes, through educational programs, especially in the field of environmental studies and oceans.

14-02-02

Does your university, as an institution, offer an educational program/awareness campaign to local or national communities regarding the sustainable management of fisheries, aquaculture, and tourism?

There is a partnership in this field currently being developed.

14-02-03

Does your university, as an institution, offer educational awareness activities to local or national communities to raise awareness about overfishing, illegal, unreported, and unregulated fishing, and destructive fishing practices?

Not available.

14-03 Supporting Aquatic Ecosystems Through Action

14-03-01

Does your university, as an institution, have a policy to ensure the preservation, restoration, and sustainable use of land-based ecosystems linked to the university, especially forests, mountains, and drylands?

There is a unit at the university level within the quality framework that oversees these matters.

14-03-02

Does your university, as an institution, support and/or organize events aimed at promoting the conservation and sustainable use of oceans, seas, lakes, rivers, and marine resources?

Yes, through teaching programs, research, and memorandums through the outcomes of conferences and organized events.

Dean of the Faculty

Department head

14-03-03

Does your university, as an institution, have a policy to ensure the sustainable harvest of food on campus from aquatic ecosystems?

No.

14-03-04

Does your university, as an institution, directly work (research and/or participation in industries) on technologies or practices that enable the maritime industry to reduce or prevent harm to aquatic ecosystems?

The university is not involved.

14-04 Disposal of Water-Sensitive Waste

14-04-01

Does your university, as an institution, have water quality standards and guidelines for water drainage (to maintain water quality for the protection of ecosystems, wildlife, human health, and well-being, etc.)?

None.
