Goal 12 Indicators: Rational Consumption and Production

12-02 Operational Measures

Indicator Question

Answer

Yes: Abbas Laghrou University has taken "concrete steps to reduce single-use materials," in cooperation with student scientific clubs. A distinctive feature of Abbas Laghrou University's approach is its partnership with student scientific clubs, which has proven essential to the success of these initiatives. These clubs serve multiple functions:

Awareness and Education: Student clubs organize campaigns, workshops, and seminars to educate the university community about the environmental impact of

Does your university single-use materials. They create peer-to-peer learning as an institution have opportunities that resonate more effectively with fellow policies on reducing students than traditional top-down messaging.

12-12-06 the use of single-use materials?

Innovation and Research: Scientific clubs contribute to developing alternative solutions, conducting research on sustainable materials, and piloting new approaches to waste reduction. Students bring fresh perspectives and technical knowledge to solve practical challenges.

Implementation Support: These clubs actively participate in implementing reduction strategies, from organizing waste sorting systems to monitoring compliance with new policies. Their involvement ensures that policies are practical and address real campus needs.
