SDG14 Life Below Water

14-02 Supporting Aquatic Ecosystems through Education

14-02-02

- Does your university as an institution offer an educational/awareness program for local or national communities on sustainable management of fisheries, aquaculture and tourism?
- Yes, the University of Khenchela offers educational and practical programs on sustainable management of aquaculture and fisheries, through field activities for its students and specialized academic courses.

Documented Achievements:

1. Scientific Field Trip to Mechri Fish Farming Farm

- Practical model for sustainable aquaculture
- Educational Application: Training students on:
 - Management of fish farming ponds
 - Utilizing fish waste in agriculture (circular economy)
 - Integration of agricultural-aquatic systems

2. Environment and Surroundings Department Programs

- Specialized courses in aquaculture
- Study of aquatic ecosystems
- Fish resources management

Evaluation:

- The university has surpassed the stage of "partnership under development"
- Existence of actual field applications
