SDG 17: Partnerships for the Goals

Abbas Laghrour University of Khenchela, based on the detailed report, is a pioneering model in achieving SDG 17, as it adopts a comprehensive and integrated approach based on institutional partnership, policy-oriented scientific research, and broad community education.

The following is a detailed analysis of the university's contributions to each indicator of SDG 17:

17-03 Publishing SDG Reports

17-03-01 to 17-03-17: Please indicate whether your university publishes progress in achieving SDG 1... up to SDG 17.

Yes, Abbas Laghrour University of Khenchela regularly publishes progress in achieving all seventeen sustainable development goals:

Abbas Laghrour University of Khenchela is committed to ensuring transparency and accountability regarding its efforts in achieving sustainable development. Based on its institutional commitment, the university publishes progress in achieving all 17 goals, using diverse publication mechanisms including periodic reports and specialized research outputs for each goal separately.

SDG Number	Goal Name	Publication Mechanisms and Output Types Documented by the University
SDG 1	No Poverty	Included in comprehensive periodic reports: The university regularly publishes reports on progress in achieving "Goal 1 (No Poverty)" explicitly. (University report)
SDG 2	Zero Hunger	Included in comprehensive periodic reports and specialized research: The university publishes reports on progress in achieving "Goal 2 (Zero Hunger)". Research related to "sustainable agriculture," "smart agriculture," and "aquaculture" (such as trips of master's students in ecology and environment) and PRFU outputs serve this goal.
SDG 3	Good Health and	Included in comprehensive periodic reports and research: The

SDG Number	Goal Name	Publication Mechanisms and Output Types Documented by the University
	Well-being	university publishes progress in achieving Goal 3. Research related to "water quality" (SDG 6) and "air quality" (SDG 13) and publications of research teams on "health" (Laboratory of Biotechnology, Water, Environment and Health) contribute to and publish about this goal. Included in comprehensive periodic reports and education contributions: The university publishes progress in achieving Goal 4. The university's commitment to "providing meaningful education on sustainable development goals throughout the university" and offering "specialized courses" is part of the progress report on this goal.
SDG 4	Quality Education	
SDG 5	Gender Equality	Included in comprehensive periodic reports: The university publishes progress in achieving Goal 5. Social indicators related to "gender equality" are included in monitoring and follow-up systems the university contributes to developing.
SDG 6	Clean Water and Sanitation	Included in periodic reports and specialized conferences: The university publishes progress in achieving Goal 6. Notable published contributions include: "Water Governance Forum between Management and Sustainable Abundance to Face Scarcity and Rising Crises (2020)" which published strategic recommendations, in addition to research on "mathematical modeling of water movement" and "water consumption rationalization techniques."
SDG 7	Affordable and Clean Energy	Included in periodic reports and specialized seminars: The university publishes progress in achieving Goal 7. Notable published contributions include: Doctoral seminar on "Renewable Energy" which addressed the national orientation toward renewable energy and its legal framework, and joint projects with the Renewable Energy Committee (with Sonelgaz).
SDG 8	Decent Work and Economic Growth	Included in periodic reports and economic forums: The university publishes progress in achieving Goal 8. Publications such as "International Forum on Transition to Green Economy (2018)" and "Conference on Real Estate and Its Role in Sustainable Development (2017)," and work on developing "supportive policies for small and medium enterprises" fall under this goal.
SDG 9	Industry, Innovation and Infrastructure	Included in periodic reports and innovation events: The university publishes progress in achieving Goal 9. The university's role in organizing "National Innovation and Sustainable Development Service Salon" and "Contribution to the National Innovation Salon" stands out as a mechanism for publishing progress in innovation.
SDG 10	Reduced Inequalities	Included in comprehensive periodic reports: The university publishes progress in achieving Goal 10. Social indicators related to "disparity in access to basic services" are included in monitoring and follow-up systems the university contributes to

SDG Number	Goal Name	Publication Mechanisms and Output Types Documented by the University
		developing.
SDG 11	Sustainable Cities and Communities	Included in periodic reports and local projects: The university publishes progress in achieving Goal 11. Published contributions include results of the participatory "Urban Waste Management Project," and research on "urban planning" and "sustainable smart cities" (within the doctoral seminar).
SDG 12	Responsible Consumption and Production	Included in periodic reports and directed research: The university publishes progress in achieving Goal 12. Research on "circular economy" (participatory workshops) and "sustainable consumption" and "natural resource consumption rationalization" are published under this goal.
SDG 13	Climate Action	Included in periodic reports, conferences and research: The university publishes progress in achieving Goal 13. Publications such as results of "modeling future scenarios for climate change," recommendations from "International Forum on Transition to Green Economy," and research on "climate change adaptation" are evidence of publication.
SDG 14	Life Below Water	Included in periodic reports and specialized research: The university publishes progress in achieving Goal 14. Specialized research related to "aquaculture" conducted by master's students and their scientific trips, and contributions to "water governance," are part of the university's published contributions to this goal.
SDG 15	Life on Land	Included in periodic reports and specialized research: The university publishes progress in achieving Goal 15. Publications such as "National Conference on Forest Heritage in Algeria" (2022), and research results on "biodiversity protection" and "protected area management," and "valorization and exploitation of plants," serve this goal.
SDG 16	Peace, Justice and Strong Institutions	Included in periodic reports and legal research: The university publishes progress in achieving Goal 16. Research related to "legal framework for renewable energy" and "enforcement of environmental laws" and "determination of legal responsibilities" (from the doctoral seminar of the Faculty of Law) is an academic contribution published under this goal.
SDG 17	Partnerships for the Goals	Included in comprehensive periodic reports and partnership documents: The university publishes progress in achieving "Goal 17 (Partnerships for the Goals)." All national and international agreement and cooperation documents, results of multi-sectoral dialogue, and monitoring and follow-up reports are publications about this goal.
