

### 03-03 Cooperation and Health Services

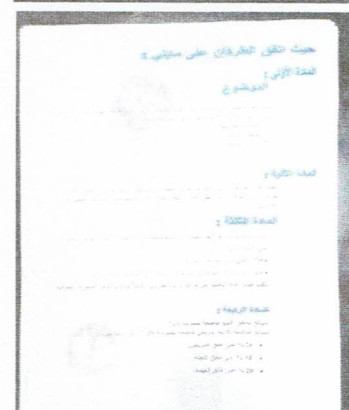

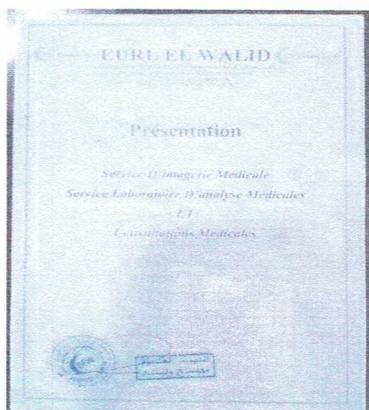

03-03-01

**Does your university, as an institution, have ongoing cooperation with local, national, or international health institutions to improve health outcomes?**

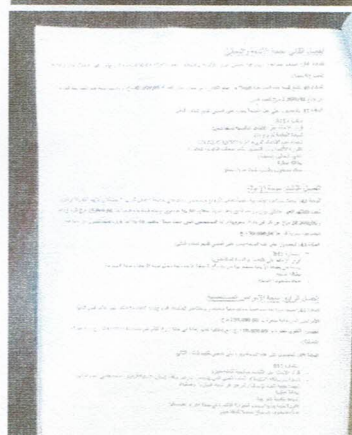

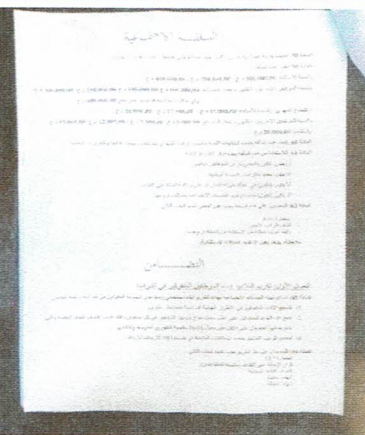

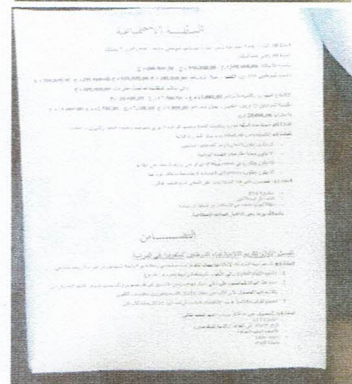

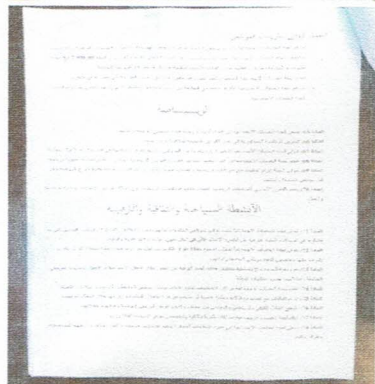

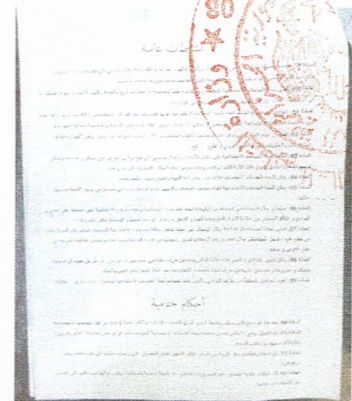

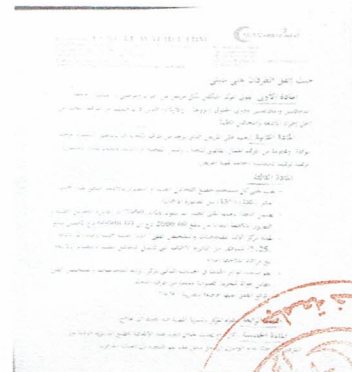

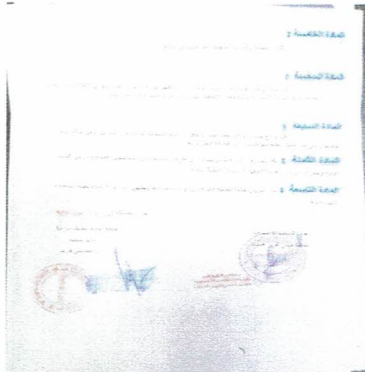

Yes, Abbas Laghrour University of Khenchela has active cooperation with five health institutions through three-year renewable partnership agreements aimed at improving health well-being and reducing the financial burden on university staff, similar to the agreements established with the Social Security Fund.

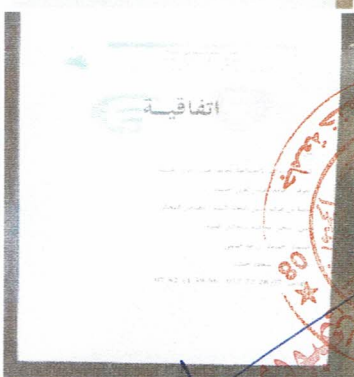

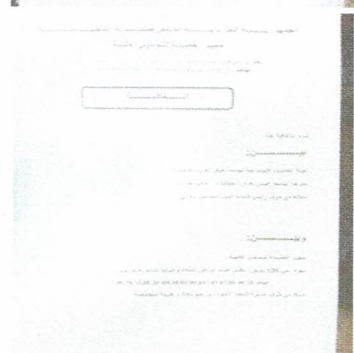

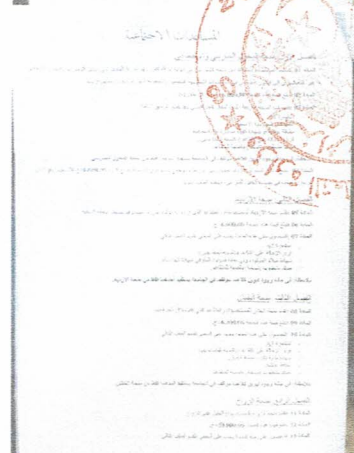

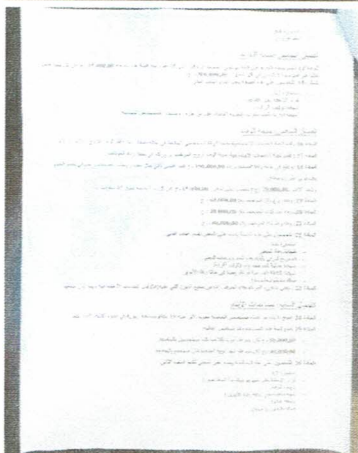

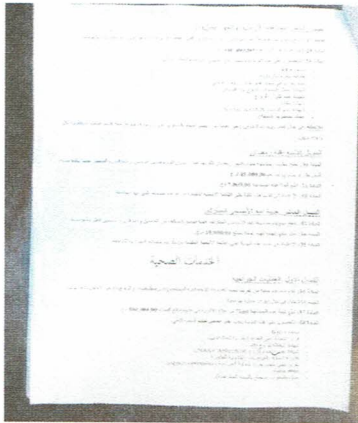

- Agreement between the university and Balsam Al-Shafi Clinic for Diabetes and Endocrinology
- Agreement between the university and the Public Institution for Neighborhood Health
- Agreement between the university and the Directorate of Health
- Agreement between the university and the private clinic Al-Widad
- Al-Hikma Laboratory
