

04-01 Community Poverty Alleviation Programs

01-04-01

Does your university, as an institution, provide support to the local community to financially and socially sustain start-ups through education or related resources? (e.g., mentoring programs, training workshops, access to university facilities)

Yes. Within the framework of its developmental mission and its openness to the economic and social environment, Abbas Laghrour University – Khenchela actively contributes to entrepreneurship support and the promotion of financially and socially sustainable projects through a range of specialized bodies and programs targeting students, graduates, and the local community. These initiatives include:

University Business Incubators (Incubators):

The incubator supports students and graduates in transforming their entrepreneurial ideas into viable projects. It provides assistance in developing business plans, offers legal and administrative guidance, and delivers training in market-related skills, in addition to providing fully equipped workspaces that foster creativity and innovation

Entrepreneurship Development Center:

This center fosters a culture of initiative among students by empowering them to showcase their innovative ideas and projects, and by organizing training and mentoring workshops with the participation of local, national, and international experts and mentors. The center aims to engage students in economic and social decision-making within a stimulating university environment.

University Business Accelerator:

An accelerator is a specialized entity that accelerates the growth and development of startups created by students or researchers. It differs from an incubator in its focus on projects ready for rapid growth. The accelerator provides modern, well-equipped workspaces, intensive training in marketing, accounting, resource management, and law, as well as continuous support lasting from two to six months. It also gives projects the opportunity to present to funding committees or investors, and sometimes provides initial financial support to cover startup costs. A business accelerator was established at Abbas Laghrour University of Khenchela based on Ministerial Decree No. 05 dated January 19, 2025

Memorandum of Understanding: University of Khenchela – University of Seville – Spain

MEMORANDUM OF UNDERSTANDING (MOU)

MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN :

The University Abbes Laghrour -khenchela - (ALGERIE)

And University of SEVILLA - ESPANA-

Types of Cooperation as stated in the Memorandum of Understanding

According to the Memorandum of Understanding (MoU), both parties indicate their willingness to cooperate in the promotion of both educational and research activities which are mutually beneficial to staff and students at both institutions.

the types of cooperation may include:

- Joint research projects and common scientific initiatives, such as seminars, lectures, summer/winter schools, etc.;
- Reciprocal exchange of academic and administrative staff;
- Research collaboration in areas of mutual interest;
- Exchange of students (Bachelor, Master, PhD);
- Use of research equipment and free access to the facilities of either institution; • Joint academic programmes (e.g. double degree programmes);
- Short-term study abroad for students; • Identification and development of key areas of common interest as stand-alone projects;
- Other activities as mutually agreed (Erasmus+ICM,...).

The university participates in international programs and projects, such as Erasmus+ and Horizon Europe, and collaborates with United Nations agencies, enabling it to contribute to the implementation of global initiatives aimed at eradicating poverty and achieving sustainable development.

These activities reflect the university's commitment to its societal and academic role in supporting the country's efforts to achieve the Sustainable Development Goals, particularly Goal 1 (eradicating poverty) according to the United Nations 2030 Agenda.
