

13-03 Environmental Education Measures

13-03-01

Does your university, as an institution, offer local educational programs or campaigns on the risks and impacts of climate change, as well as on mitigation, adaptation, impact reduction, and early warning?

Yes, Abbas Laghrour University of Khenchela organizes awareness programs and seminars on the risks and impacts of climate change and encourages research in the fields of mitigation, adaptation, and the use of renewable energy.

Photos: A study day at the Faculty of Science and Technology on the topic “*Power Converters for Modern Wind Turbines*”, presented by Dr. and Engineer Shaal Hamza, an employee at Siemens, UK, invited by the Dean of the Faculty, Professor Abboudi Abdelaziz, and under the general supervision of the University President, Professor Shala Abdelwahid.
