

**Pr. Souhil Boufennara** was the chief of SAIDAL's Department of Quality Control of Constantine (1995-2002). Drawing upon this rich experience, he became a great specialist in chemical and biochemical laboratory techniques. In addition, He is a professor at the Department of molecular biology at the University of Khenchela in Algeria for almost twenty two years (2002-2024). During this period, he had taught courses mainly relating to instrumental laboratory techniques (Chromatography phase liquid HPLC, Chromatography phase gas, Electrophoresis, Spectrophotometry.....). Beyond his scientific skills, **Pr. Souhil BOUFENNARA** stands out for his dedication to sharing and imparting knowledge. He has consistently used his expertise and experience to benefit students, always striving to make complex concepts accessible and engaging. His voluntary involvement in organizing conferences nationwide highlights his intellectual generosity and commitment to fostering the growth of future generations.
