THE SECOND NATIONAL CONFERENCE

WHE 2026 - WATER, HEALTH AND ENVIRONMENT

IMPACT OF CLIMATE CHANGE

December, 2026

CONFERENCE TOPICS

1. Climate change impacts on water resources, ecosystems and geo-resources valorization
2. Water desalinization, water quality and health risks: microbes, ecologic anthropogenic activities.
3. Progress in the treatment, recycling and reuse of treated wastewater in agriculture
4. Green chemistry, emerging pollutants in water, soils and renewable energy.

OBJECTIVES

National Scientific Conference concentrating on understanding water quality, climate change, geo-resources engineering, management and health. This conference encourages the participation of experts and scholars in the corresponding fields.
